Website Developer Awisher

08/2020 - 06/2021

Hyderabad

Awisher is a cashback website that rewards its users when they purchase digital tools.

Achievements/Tasks

- Built the entire website from scratch using **WordPress** CMS and achieved 120+ sign-ups.
- Led a team of interns and achieved a **60% traffic increase** through successful **SEO** strategies.

Website : <https://awisher.com/>

EDUCATION

Bachelor of Technology

Gokaraju Rangaraju Institute of Engineering and Technology (GRIET)

2017 - 2021

CGPA: 7.6

SKILLS

PERSONAL PROJECTS

HackerHelp

- [Github](#)
- HackerHelp allows developers to get live debugging assistance from mentors and pay them a bounty for their help. The platform also allows for live chat and video debugging sessions.
- HackerHelp won first place in the Best DevTool track at Next Video Build Web3 hackathon 2023

FileMart

- [Github](#), [Live website](#)
- FileMart is a decentralized marketplace on Ethereum blockchain where anyone can buy/sell any digital products such as college notes, music, 3D pictures, designs, audiobooks, and e-books.
- It is self-governing, meaning that if a fraudulent dataset is uploaded and sold, it can be flagged by a purchaser or potential purchaser. After three flags, the dataset page is locked.

MyENSNetwork

- [Github](#), [Live website](#)
- MyENSNetwork simplifies managing ENS names, improving organization and reducing the risk of losing track of digital IDs.
- Retrieves registration & expiry dates for ENS name from subgraph.

CERTIFICATION'S

Microsoft - Azure Fundamental (AZ900) Certified

Full Stack Development (MERN) - Udemy

Front-End Web Development with React - Coursera
